

VALIDATED DEVICES FOR HOME BLOOD PRESSURE MONITORING

List generated from www.stridebp.org on the 28 Nov 2023

Preferred devices: for Home use are upper-arm cuff devices with at least one STRIDE BP approved validation study, which was published within the last 10 years and used a recent protocol (AAMI/ESH/ISO 2018; ANSI/AAMI/ISO 2013 or 2009; ESH-IP 2010) and also automated storage of multiple readings, or mobile phone, PC or internet link connectivity enabling data transfer.

Validated devices: have passed established validation procedures that have been checked and approved by the STRIDE BP Scientific Advisory Board.

* **Equivalent or Identical devices:** Equivalent devices have not been validated but evidence has been provided and approved by the STRIDE BP Scientific Advisory Board showing that they are equivalent to a device that has fulfilled the criteria for validated devices (see above). Identical devices have no difference from a STRIDE BP approved device, apart from model name change.

Preferred devices (144)

A&D UA-1200BLE	Konsung QD217A	Omron M4 Intelli IT (HEM-7155T-ALRU) *
